Art Vernissage

Six ISL International Baccalaureate students held their very own Art Vernissage on Thursday 8 February. The exhibition was the culmination of two years of individual work by the students.

The students all chose different themes and the art exhibition included sculptures and paintings. Staff, parents and the ISL community attended the preview and were completely mesmerised by the exquisite work on display.

The objective for the students was to curate their own work so they could experience what it is like to hold an exhibition. They had considered how best to display their work and how to convey the meaning and purpose of their pieces. They busy answering questions about their creative thinking process all evening!
